The following is an **Examiner's Statement of Reasons for Allowance**:

Claims 24-37 are directed to isolated nucleic acid molecules comprising nucleotide sequences having at least 95% identity to an mRNA or cDNA sequence encoding a human CDC-like kinase of specific amino acid sequence, as well as molecules consisting of nucleotide sequences having at least 95% identity to cDNA or mRNA encoding said CDC-like kinase, vectors and host cells comprising said molecules and methods of expressing said molecules.

Claimed mRNA or cDNA sequences are free of prior art. Further, the prior art does not teach or suggest preparing such specifically claimed sequences. Hence said sequences are also non-obvious.

Since said mRNA and cDNA sequences are novel and non-obvious, their specifically claimed homologs thereof, molecules comprising or consisting of said products, vectors and host cell comprising said molecules and methods of expressing said molecules are also novel and non-obvious.

Claims 24-37 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
